

Declaration of conformity conflict minerals

In connection with the Dodd. Frank Act section 1502 we have confronted our main suppliers with the requirements and can confirm, that in principle no cassiterite (tin ore) columbite-tantalite (coltran, tantalum ore) gold and tungsten come from one of the relevant conflict countries.

We also confirm compliance with the "3TG" according to (EU) 2017/821.
Our most important suppliers are obliged to guarantee complete traceability and transparency for the products supplied.

We trust this information meets your expectations. Should you have additional questions please don't hesitate to contact us.

Burg, 26 October 2023
